

I reject NAB's petition 04-160 !!!!!!!!!!! I pay for this service and I should have the right to have satellite radio of my choice. Some of my favorite shows have been removed thanks to the FCC, the last time I checked this was still a free country and we have rights!!!! XM should stay just the way it is! I enjoy everything it offers, I am a long haul truck driver that benefits from the weather and traffic update! Don't you have more important matters to concern yourself with than what a service provider is providing which is already filtered by the FCC.
